Programme of the Rabbit Meeting 14-15 of june 2007

Thursday, june 14

Registration, preparation of posters: 8.30-9.15

Introduction: 9.15

Session 1: Rabbit selection and genome.

Chairperson: Y. Heyman

* 9.30-10.10: Description of the different rabbit lines. G Bolet (INRA, Toulouse, France).

* 10.10-10.50: Rabbit genome: description and use of markers. C. Rogel-Gaillard (INRA, Jouy en Josas, France).

* 10.50-11.30: Rabbit production and conservation. T Joly (ISARA, Lyon, France).

* 11.30-12: Break.

* 12-12.40: Rabbit semen conservation. S.Kitajima (Saga University, Japan).

Lunch: 12.40-14

Session 2: Normal rabbits as models to study of human diseases.

Chairperson: L. Lagrost

* 14-14.40: Lipid metabolism. M Shiomi (Kobe University, Japan).

* 14.40-15.20: Infection by papilloma virus. ND Christensen (Penn State University, USA).

* 15.20-16: Tuberculosis. YC Manabe (John Hopkins University, USA).

* 16-16.30: Break

Session 3: ES cells and cloning.

Chairperson: J.P. Renard

* 16.30-17.20: Rabbit ES cells. Z Bösze (Gödölö, Hungary).

* 17.20-18: Gene targeting using somatic cell nuclear transfer. F Du (Connecticut University, USA).

Poster Session: 18-19

Dinner:

* 19: bus to the restaurant

* end of dinner: bus to hotels

Friday, june 15

Session 4: Transgenic models to study human and animal diseases.

Chairperson: Z. Bösze

* 9-9.40: Rabbit as a model to study development. V Duranthon (INRA, Jouy en Josas, France).

* 9.40-10.20: Arrhythmia. M Brunner (Freiburg University, germany).

* 10-20-11: Atherosclerosis. L Lagrost (INSERM, Dijon, France)

* 11-11.30: Break.

* 11.30-12.10: Obesity. I Harosh (ObeTherapy, Evry, France).

* 12.10-13: Prion diseases. P Sarradin (INRA, Tours, France).

Lunch: 13- 14.

Session 5: Production of pharmaceutical proteins.

Chairperson: L.M.Houdebine

* 14-15.40: Production of glycosylated proteins in milk. M Salaheddine and M Manesse. (Pharming, The Netherlands).

* 15.40-16.10: Break.

Session 6: Special tools.

Chairperson: J.L. Fan

* 16.10-16.30: GFP rabbits. K Al Gubory (INRA, Jouy en Josas, France).

* 16.30-17: Available tools to use interfering RNA in animals. C Terrier (Sigma-Aldrich, Paris, France).

* 17-17.40: Towards the creation of a rabbit research centre. JL Fan

* Award

* 18: End of the meeting.
